

HOME SWEET HOME

LIFE IN A WOODLAND TREE

WOODLAND WORD CUBE

The letters in the cube below spell out "shrike-tit", which is a kind of woodland bird. Your job is to see how many words you can make using these letters, while remembering these two rules:

1. All words you make must contain the middle letter 'K'
2. You can only use each letter in the cube once (this means you could make a word with 2 'T's in it because there are 2 'T's in the cube but you can't make a word with 2 'R's in it, for example, because there is only 1 'R' in the cube).

So how many words can you make? (We found 15)

S	H	R
I	K	E
T	I	T
